STIESIA Surabaya

Doctoral Program in Accounting – STIESIA Surabaya

The Doctoral Program in Accounting at STIESIA Surabaya is envisioned as a center of excellence dedicated to advancing accounting knowledge with creativity, innovation, and integrity. In line with STIESIA's aspiration to be a nationally and internationally distinguished institution of higher learning, the program provides a rigorous academic environment that encourages doctoral candidates to explore, refine, and advance original ideas that address the evolving landscape of contemporary accounting.

With an adaptive curriculum, a distinguished faculty, and strong research infrastructure, the program is committed to nurturing future thought leaders, globally competitive researchers, and academic professionals. Graduates are expected not only to contribute to the sustainability of the discipline, but also to deliver strategic, research-based solutions to complex challenges in the accounting field.
