Founder and Principal of KAP Nur Sodik dan Rekan

I am Ermawan Bangun Rekayasa, one of the alumni of PPAK STIESIA Surabaya. The classes in PPAK STIESIA greatly helped in thinking analytically and critically about the theory and application of accounting science, as there are public sector accounting and auditing courses that support my work as an auditor at the BPK. I am currently a Junior Expert Auditor at the BPK Representative Office of East Java Province.
